profile:

I am a young graphic designer, recently graduating from the University of Cumbria with a BA (Hons). Prior to this I also graduated with a Foundation degree in the same subject.

I have a strong passion for design with a desire to learn new things and enjoy working to tight deadlines. Areas of Graphic Design which I am very keen on include Branding and Editorial work. Whilst at University I was able to participate in a number of live projects, which introduced me to a variety of clients and allowed me to develop my presentation and communication skills. Since graduating from University I have been able to further my skills with a number of work placements, allowing me to gain valuable insight into studio life.

interests:

I am very fond of photography, and enjoy photographing wildlife and buildings, the latter for texture and mood. I prefer film cameras, although I most often take photographs using a Cannon 450D digital SLR. I also enjoy drawing by hand, making full use of different pens and pencils so that I can further explore my work. I also enjoy producing digital illustrations as I enjoy exploring alternatives to traditional methods.

work experience:

The Point Design, Newcastle

- March 2010.

Native Print, Newcastle

- Feb 2010.

Warm Design, Newcastle

- Sept 2009.

Fatfrog Design, Newcastle

- Jul 2009.
